AMENDMENT BEFORE FIRST OFFICE ACTION

Commissioner of Patents
and Trademarks
Washington, D.C. 20231

Sir:

Please enter the following amendments to the
remaining claims of the still pending CPA application filed
January 17, 2002 upon the subject application.

IN THE CLAIMS

Replace claim 1 to read:

1. A fiber reinforced pipe length comprising a
solid thermoplastic organic member having an outer wall
enclosing an inner hollow cavity which includes a plurality of
continuous juxtapositioned reinforcement fibers formed with a
solid material composition selected from the group consisting
of ceramics, metals, carbon, glass compositions and organic
polymer thermally bonded to the outer wall surface at a
predetermined spatial angle with respect thereto for maximum
effectiveness in withstanding the applied internal stress when
the reinforced pipe length is subsequently put into service,
the continuous fiber having been continuously applied in an
unbonded condition while maintaining said pipe length in its
hollow condition and the subsequent thermal bonding of the
applied fibers only adhering the applied fibers to the outer
wall surface of the underlying pipe length without utilizing
further adherence agents and while not further melting said
underlying pipe length to avoid introducing thermally induced
residual stress therein.

7. A plurality of identical fiber reinforced pipe
lengths joined together prior to reinforcement at the ends and
each comprising a solid thermoplastic organic polymer member
having an outer wall enclosing an inner hollow cavity, said
joined pipe length having a plurality of continuous
juxtapositioned reinforcement fibers formed with a solid
material composition selected from the group consisting of
